

**erpcomplete\_PRO™** is WPA PRO\_technologies' Product and Service Suite Designed to Provide your firm with Everything Necessary to Extract the Maximum Potential Return from your QAD MFG/PRO Investment. *erpcomplete\_PRO* Better Enables Your Company to *Invest In Itself*.

*Companies may find having an ERP system that can meet all of their needs poses many significant challenges. Among them...*

- ✦ **Efficiency** – The out-of-the-box functionality of your ERP may not be a proper fit for a crucial area within your organization. This could keep your company from operating as efficiently as it could, and you're paying for it with lost opportunity or lower productivity.
- ✦ **Accuracy** – Errors are being made that cause problems and waste time.
- ✦ **Utilization** – Keeping everybody utilizing the ERP system properly and getting the results you want from your ERP is an ongoing challenge.
- ✦ **Cost** – You would like more choices in how your ERP dollars are spent. Your ERP environment may become burdened with large costs for necessary ERP components. Expensive licensing, support and mandatory fixed-fee maintenance contracts could be a concern. The benefits being provided to you from all of these costs may not meet with your requirements.

*Solving these and all your ERP challenges requires a strategic plan and a very experienced partner...*

**erpcomplete\_PRO™** consists of the following components targeted to deliver your company everything you need to run your QAD MFG/PRO system most efficiently...

- ✦ **PRO\_scan™** – The finest, most cost-effective integrated plant floor RF Automated Data Collection technology available for MFG/PRO. *PRO\_scan* streamlines transactions across your entire plant floor, from receiving to shipping. *PRO\_scan* utilizes market-preferred, online, real-time Progress platform technology.
- ✦ **PRO\_edigateway™** – WPA offers choices for integrating EDI with MFG/PRO. WPA integrates your EDI simply and securely to MFG/PRO with *PRO\_edigateway™*, our Best-of-Breed EDI solution. *PRO\_edigateway™* provides everything your company needs to efficiently and cost-effectively integrate mission-critical EDI with MFG/PRO. WPA also implements and extends the eCommerce EDI Module solution.
- ✦ **PRO\_forms** – Print MFG/PRO shippers, bills of lading, PO's, invoices, AP checks, and more - right to your laser or inkjet Printer - at a fraction of the cost of other forms packages for MFG/PRO.
- ✦ **PRO\_linux** - The ultimate host platform to deliver value to your IT budget. Bring power, security and flexibility to your MFG/PRO system. Linux is the preferred platform for those companies that need to separate themselves from the high costs associated with proprietary Unix platforms, while not sacrificing any of the robust capabilities and dependability that Unix delivers.
- ✦ **PRO\_connect** - Leverage the connectivity of the Internet. Exchange business information with your trading partners effectively and economically. Migrate from obsolete legacy communications protocols to TCP/IP protocols.
- ✦ **PRO\_consulting, development and support** – WPA has the extensive skills and experience to put everything together and make your entire MFG/PRO ERP system run as a tightly integrated extension to your established business practices. We accelerate your company's competitive advantage.
